Kartik Ajmera

Web Developer

Chittorgarh, Rajasthan 312001 • kartikajmera89@gmail.com • 9799712300

About

A dedicated and self-taught web developer with a strong passion for creating innovative and user-friendly web applications. I have honed my skills in both frontend and backend development. Eager to contribute my knowledge and expertise to dynamic projects while continuously expanding my skills as a Full Stack Developer.

Projects

The lodge lyfe - A Full-Stack Admin Dashboard   November 2023
- Utilized MERN stack with JWT token for secure access.
- Leveraged React Query for efficient data handling.
- Styled Components for design.
- Admin tools support booking management, sales analysis, and statistical insights.
  https://github.com/zZedx/The-Lodge-Lyfe---Frontend

Chatter - A Full-Stack Chat Application   September 2023
- Implemented user sign-in functionality, providing a secure and personalized experience for users.
- Utilized Socket.io to enable real-time chat, allowing users to engage in dynamic conversations.
- Integrated MongoDB to store user data and chat histories, ensuring data persistence and scalability.
- Employed Bootstrap to create a responsive and visually appealing user interface for a seamless user experience.
  https://github.com/zZedx/Chatter

Instafolio - Instagram-Inspired Portfolio Website   October 2023
- Showcased my skills, projects, and experiences in a visually striking manner, making it easy for visitors to explore my work.
- Leveraged React to create a responsive, single-page application, enhancing interactivity and performance.
- Employed React Router for smooth and intuitive page transitions, ensuring a user-friendly interface.
- Designed the website with the visual appeal of Instagram, offering a fresh and engaging user experience.
  https://github.com/zZedx/InstaFolio

Domihut Pizza - Pizza Ordering Web App   October 2023
- Created a dynamic and interactive user interface using React, ensuring a smooth and engaging experience for customers.
- Leveraged Redux Toolkit to efficiently manage the application's state, enabling seamless cart updates and order processing.
- Utilized React Router for intuitive page navigation, making it easy for users to explore the menu and place orders with smooth transitions.
- Designed the app with Tailwind CSS to ensure responsive and visually appealing layouts on a variety of devices, delivering a user-friendly experience.
